## Welcome

---

LOLA PARIS was born in the heart of HITACS S.L. (High-Tech Automatic Cutting Solution). The company has more than 20 years of experience in the field of robotic cutting processes of flexible materials.

The technical knowledge and the HIGHLY CREATIVE VOCATION of the restive team has allowed LOLA PARIS to come to life to offer an innovative and avant-garde decorative proposal from our workshop located in Alicante (Spain).

Nowadays, we are the only company in the world that offers tridimensional and decorative textile murals with large dimensions on adhesive foam among other advantages.

## Bienvenidos

---

Dominantes de las técnicas y formado por un equipo con vocación altamente creativa, LOLA PARIS vio la luz de forma natural, para ofrecer una innovadora y vanguardista propuesta decorativa, desde nuestros talleres en la provincia de Alicante.

LOLA PARIS nace en el seno de HITACS S.L., empresa heredera de más de 20 años de know-how acumulado en el campo de la robotización de procesos de corte de materiales flexibles

Actualmente, somos la única empresa del mundo que puede ofrecer murales decorativos tridimensionales, de grandes dimensiones, en tejido foamizado y adhesivo, entre otras ventajas.

## Bienvenue

---

LOLA PARIS a vu le jour au sein de HITACS S.L (High-Tech Automatic Cutting Solutions), une firme héritière d'un savoir-faire de plus de 20 ans positionnée dans le secteur de la robotique appliquée aux procédés et à la découpe de matériaux tissés.

Experte dans son domaine et dirigée par une équipe créative, LOLA PARIS est née pour offrir un large éventail d'éléments décoratifs depuis ses ateliers situés dans le sud-Est de l'Espagne à Alicante.

Aujourd'hui Lola Paris est la seule entreprise au monde à pouvoir offrir de tels produits; des motifs muraux tridimensionnels, de grandes dimensions en tissu capitonné et adhésif.

## Willkommen

---

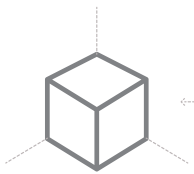

Das Projekt LOLA PARIS wurde im Herzen von HITACS S.L. (High-Tech Automatic Cutting Solutions) geboren. Mit mehr als 20 Jahre Erfahrung im maschinellen Schneiden von biegsamen Materialien sowie anderen Schneideprozessen.

LOLA PARIS entstand aus unserem technischen Wissen, sowie dem kreativen Denken unseres motivierten Teams. Wir bieten Ihnen innovative und avant-garde Dekorationsideen aus unserem Workshop in Alicante (Spanien).

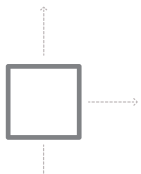

Aktuell sind wir weltweit die einzige Firma in der Produktion von dreidimensionalen, dekorativen Textil-Wandbilder in großen Dimensionen aus Schaumstoff, welche eine Vielzahl von Vorteilen bietet.

## What we offer

---

### Elements of decoration in 3D self-adhesive Fabric

- Headboards
- Wall murals
- Luminary
- Framings
- Lettering
- Tatoos

### Fabric table accessories

- Placemats
- Table runners

### High decoration curtains

- Fretworked curtains

### Corporate Elements

- Corporate image in 3D self-adhesive fabric
- Custom tablecloths
- Custom curtains

### Custom Templates

- Exclusive creations
- Sizes to measure
- Creations with customers fabrics

## Lo que ofrecemos

---

### Elementos de decoración en Tejido 3D autoadhesivo

- Cabezales de cama
- Murales
- Luminarias
- Marcos
- Letras
- Tatoos

### Accesorios de mesa en tejido

- Salvamanteles
- Caminos de mesa

### Cortinas de alta decoración

- Cortinas confeccionadas con calados internos

### Elementos corporativos

- Imagen corporativa en tejido 3D autoadhesivo
- Ropa de mesa personalizada
- Cortinas personalizadas

### Modelos Personalizados

- Creaciones exclusivas
- Tallas a medidas
- Creaciones con telas cliente

## Qu'offrons-nous

### Éléments décoratifs en tissu 3D autoadhésif

- Têtes de Lit
- Décoration murale
- Luminaires
- Encadrements
- Calligraphie
- Tatouages muraux

### Accessoires de table

- Sets de table
- Chemins de table

### Rideaux et tentures de haute décoration

- Rideaux et tentures ajourés

### Éléments corporatifs

- Logos et visuels d'entreprise en tissu 3D autoadhésif
- Accessoires de table personnalisés
- Rideaux et tentures personnalisés

### Décoration personnalisée

- Créations exclusives
- Fait sur mesure
- Réalisations avec tissu client

## Was wir anbieten

### Elemente der Dekoration in 3D selbstklebende Gewebe

- Bett Kopfteil
- Wanddekor
- Leuchte
- Rahmen
- Kalligraphie
- Wandtattoos

### Stofftischzubehör

- Tischsets
- Tischläufer

### Hohe Dekoration Vorhänge

- Vorhänge aus mit durchbrochenen

### Elemente der Corporate Identity

- Corporate-Identity-Elemente in 3D-Gewebeklebstoff
- Brauch Stofftischzubehör
- Benutzerdefinierte Vorhänge

### Benutzerdefinierte Modelle

- Exklusive Kreationen
- Maßnahmen Maßanfertigung
- Kreationen mit Kunden Stoffen

## 3D Mouldable

Perfectly adaptable to any type of wall surface, smooth or irregular.  
Adaptable a cualquier tipo de superficie irregular.  
Adaptables a tous les types de surfaces irrégulières.  
Ideal anpassbar and jegliche Wandoberfläche, glatt oder rau.

## Flexible

Flexible 3D and Moldable product.  
Producto 3D flexible y maleable  
Matériaux 3D flexibles et malléables.  
3D-Produkt flexibel und formbar

## Wastefree

Wastefree, no damage caused.  
Libre de desechos, no deja residuos.  
Ne laisse aucun résidu de colle.  
Abfallfrei und verursacht keinen Schaden.

## Removable

No damage is caused when removed. It can be removed immediately or after a long period of time.

Permite la eliminación sin rastro, la reubicación de las figuras y la protección total del soporte.

Reposotopnabile: Aucun dommage n'est causé après qu'il ait été enlevé, que se soit après une courte ou une longue période.

Beim Entfernen entsteht kein Schaden. Es kann sofort oder nach einer langen Zeit entfernt werden.

## Anti spot Treatment

Special anti-stain treatment.  
Tratamiento especial anti-manchas.  
Spéciale traitement anti-tâches.  
Besondere behandlung anti-stains.

## Acoustic and thermal properties

Acoustic and thermal properties.

Sauberer und klarer Schnitt.

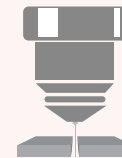

## Washable

Teflon<sup>®</sup>, or the equivalent, treated, it allows a simple and effective cleaning of the product.

Tratados con Teflon<sup>®</sup>, o equivalente, permiten una limpieza del producto sencilla y eficaz.

Traité au Teflon<sup>®</sup>, ou similaire, pour un nettoyage facile et efficace

Die Bearbeitung mit Teflon<sup>®</sup>, oder gleichwertig; erlaubt eine einfache und effektive Reinigung des Produktes

## Clean and stable cut

Clean and cauterized cut  
Corte limpio y cauterizado  
Coupe nette et cautérisé  
Sauberer Schnitt und verschlossen

## Made in Spain

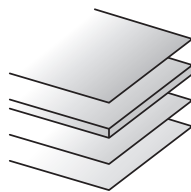

Logistic and quality advantages being 100% made in Spain in comparison to other imported products.

Ventajas cualitativas y logisticas de ser 100% Made in Spain en comparación con productos de importación.

Fabriqué en Espagne, de la conception à la logistique, apportant un gage de qualité en comparaison à d'autres produits importés.

Es ist ein logistischer sowie qualitativer Vorteil 100% in Spanien zu produzieren, im Vergleich zu anderen importierten Produkten.

# COMPOSITION AND MANUFACTURING PRINCIPLE

Composición y principio de fabricación  
Composition et principe de fabrication  
Zusammensetzung und Herstellungsgrundsatz

## 1. FABRIC VISIBLE LAYER

Composed by a fabric with a minimum of 50% of synthetic fibres, of polyester type. The composition, weight, friction resistance and other characteristics and treatments, depends on the objective market and our clients requirements, taking into consideration that the fabric world is extremely rich in variants and options. LOLA PARIS's products are made with the THERMOFUSION process during the cutting phase of the synthetic material that make our fabric collections. In this way, there isn't any fraying and we are able to cut any geometric form however complex is.

## 2. POLYESTER LAYER

Composed by a polyester sponge of 4-5mm thickness. It is directly thermofused on the tissue to give the correct adherence and the required uniformity.

## 3. ADHESIVE LAYER

It is designed to allow the product removability during the placement and time after. In this way, we get the product to be placed in different places and rooms.

## 4. PROTECTION LAYER

The last layer is made of a protection paper for the bi-siliconized adhesive.

## 1. CAPA TEXTIL VISIBLE

Compuesta por un tejido con un mínimo del 50% de fibras sintéticas, de tipo poliéster. La composición, gramaje, resistencia a la fricción y otras características y tratamientos, dependerán del mercado objetivo y de las exigencias de nuestros clientes, teniendo en consideración que el mundo del tejido es extremadamente rico en variantes y opciones. Los productos LOLA PARIS están fabricados mediante el procedimiento de THERMOFUSIÓN durante la fase de corte de las fibras sintéticas que componen los tejidos de nuestras colecciones. De esta forma, se evita el deshilachamiento y se permite el corte de cualquier forma geométrica por compleja que sea.

## 2. CAPA DE POLIÉSTER

Formada por una esponja de poliéster de unos 4-5mm de espesor, directamente termofusionada sobre el tejido, la cual, le confiere la adherencia y uniformidad requerida.

## 3. CAPA ADHESIVA

La capa adhesiva del producto está diseñada especialmente para permitir su removilidad, tanto durante su colocación como pasado un tiempo. De esta forma, conseguimos que el producto pueda ser dispuesto en distintos lugares y estancias.

## 4. CAPA DE PROTECCIÓN

La última capa consta de un papel de protección para el adhesivo bisiliconado.

## 1. COUCHE VISIBLE DE TISSU

Se compose d'un tissu qui offre un minimum de 50% de fibres synthétiques de type Polyester. La composition, le grammage, la résistance à la friction et autres caractéristiques et traitements dépendront des exigences du client, en tenant compte que le monde du tissu est extrêmement riche en variantes et options.

Le principe fondamental de fabrication des produits LOLA PARIS est basé sur le procédé de THERMOFUSION des fibres synthétiques.

Nous évitons que les tissus filochent ce qui nous permet par conséquent de réaliser des coupes périmétriques et intérieures de grandes complexités, et couper toutes les formes géométriques, aussi complexes soient-elles, offrant un produit totalement innovateur et exclusif.

## 2. COUCHE DE POLYESTER

Se compose d'une mousse de polyester d'approximativement 4-5mm d'épaisseur qui viendra se thermofusioner directement sur le tissu, ce qui lui confère une adhésion et une uniformité pratiquement sans faille.

## 3. COUCHE ADHÉSIVE

La troisième couche de la composition représente la substance adhésive du produit. Cet adhésif a été spécialement développé pour permettre une totale amovibilité, tant pendant le processus de pose que dans le temps.

## 4. COUCHE DE PROECTION

La quatrième et dernière couche se composer d'un papier de protection de l'adhésif bi-siliconé pour un retrait facilité au moment de la pose.

## 1. EINSEHBARE STOFFSCHICHT

Zusammengesetzt aus einem Stoff mit mindestens 50% synthetischen Fasern vom polyester Typ. Die Zusammensetzung, Gewicht, Resistenz, Verarbeitung und andere Eigenschaften hängen von dem Markt und den Voraussetzungen unserer Kunden ab, da auf dem Stoffmarkt es sehr viele unterschiedliche Optionen gibt. LOLA PARIS's Produkte werden während des Schneidprozesses des synthetischen Stoffes mithilfe einer THERMOFUSION hergestellt. Aufgrund dessen gibt es keine Fransen und wir können den Stoff in jede geometrische Form schneiden, egal wie komplex diese ist.

## 2. POLYESTER SCHICHT

Zusammengesetzt aus einem 4-5mm dickem Polyesterschwamm. Dieser wird direkt mit Hilfe der Thermofusion auf Stoff gepresst um die Optik sowie die Uniformität zu gewährleisten.

## 3. KLEBESCHICHT

Die Klebeschicht erlaubt dem Produkt verschoben zu werden, während dem Anbringen sowie nach einiger Zeit. Somit können wir das Produkt in unterschiedlichen Orten und Räumen anbringen.

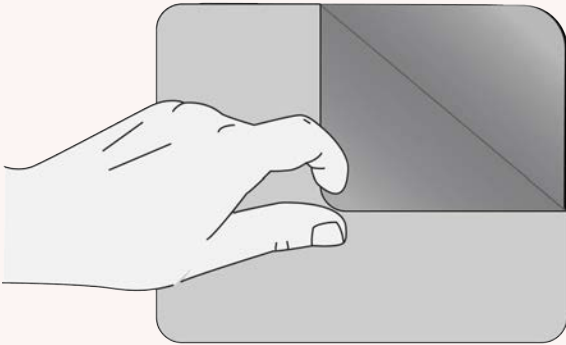

## 4. SCHUTZSCHICHT

Die letzte Schicht besteht aus einem Schutzpapier für die bi-siliconierte Klebeschicht.
